training

## **What did you do before you started your apprenticeship with Tyne North Training?**

I stayed on at school to do sixth form. I also had a part time job in a shop.

## **Tell us what your typical day on your apprenticeship programme with Tyne North Training is like...**

As I am in my third year of my apprenticeship I spend most days in the work place doing similar jobs to full time employees. However, when I am not busy I often take time to finish up college work, NVQ questions or fill out my logbook.

## **What made you opt for an apprenticeship? And what made you choose Tyne North Training?**

I first applied for college as I was not enjoying sixth form and I did not want to continue the second year. I was then advised from the staff at the college to enroll at Tyne North Training for an opportunity to get an apprenticeship as well as attending college.

## **What is it about the industry / role that made you want to pursue your apprenticeship with Tyne North Training?**

The apprenticeship was compelling to me because at that time I was doing both studies and a job individually meaning I did not have a lot of free time. With the apprenticeship I thought it would be like having the benefit of merging the two together, having a job but also getting an education. I also thought about the benefits of getting on the career ladder as I know it can be difficult to get a job after education due to lack of experience.

**Daikin Applied UK**

## **What do you enjoy about your apprenticeship with Tyne North Training?**

I enjoy the fact that, although I am at work and I am doing a job, I have also met people similar age to me who share similar interests and managed to grow strong relationships with these people.

## **What THREE skills would you say are essential for your role?**

- Working in a team
- Being able to solve problems
- Being able to work and design on computers

## **What would you say to someone who is considering applying for a Business Administration apprenticeship with Tyne North Training?**

I would definitely recommend an apprenticeship. It has helped me meet new people, become a more confident person as well as giving me a head start towards a career which I knew I wanted to do.

You can gain experience and you can get opportunities which would not be offered to you at a normal, full time job. Get applying to Tyne North Training.
